

Stellar DBX to PST Converter - Technician 3.0

Installation Guide

Overview

Stellar DBX to PST Converter - Technician converts Microsoft Outlook Express (DBX) files to Microsoft Outlook (PST) file. The application scans and converts a single DBX or a complete mailbox with multiple DBX files. Additionally, this application can also add multiple identities. After scanning, the software shows the preview of mails.

What's new in this version?

- Support for MS Outlook 2016

Key Features of Stellar DBX to PST Converter - Technician are as follows:

- User friendly and secure software.
- Converts Microsoft Outlook Express (DBX) files to Microsoft Outlook (PST) file.
- Converted files in MSG, EML, RTF, HTML, PDF and Office 365 formats.
- Find feature to search for Microsoft Outlook Express (DBX) files.
- Provides preview of mails.
- Log Report.

Installation Procedure

Before installing the software, check that your system meets the following minimum system requirements:

Minimum System Requirements

Processor: Pentium Class

Operating System: Windows 10 / Windows 8.1 / Windows 8 / Windows 7 / Windows Vista.

Memory: Minimum 1 GB

Hard Disc: 100 MB free space

MS Outlook: 2016 / 2013 / 2010 / 2007

To install the software, follow these steps:

1. Double-click **StellarDBXtoPSTConverter-Technician.exe** executable file to start installation. **Setup - Stellar DBX to PST Converter - Technician** dialog box is displayed.
2. Click **Next. License Agreement** dialog box is displayed.
3. Choose **I accept the agreement** option. **Next** button will be enabled. Click **Next. Select Destination Location** dialog box is displayed.
4. Click **Browse** to select the destination path where the setup files will be stored. Click **Next. Select Start Menu Folder** dialog box is displayed.
5. Click **Browse** to provide path for program's shortcuts. Click **Next. Select Additional Tasks** dialog box is displayed.
6. Choose the check boxes as per your choice. Click **Next. Ready to Install** dialog box is displayed.
7. Review the entries. Click **Back** if you want to change them. Click **Install** to start installation. The installation window shows the progress.
8. After completing the process, **Completing the Stellar DBX to PST Converter - Technician Setup Wizard** window is displayed. Click **Finish**.
9. Clear **Launch Stellar DBX to PST Converter - Technician** check box to stop automatic launch of software.

Note: Clear **Launch Stellar DBX to PST Converter - Technician** check box before clicking **Finish** to prevent the software from launching.

About

Ordering the Software

To know more about Stellar DBX to PST Converter - Technician, click [here](#).

To purchase the software online, please visit <https://www.stellarinfo.com/email-repair/dbx-pst-converter/buy-now.php>

Select either of the methods given above to purchase the software.

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

Registering the Software

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you will receive via email after purchasing the software.

To register the software:

1. Run demo version of **Stellar DBX to PST Converter - Technician** software.
2. On **Registration** menu, click **Register** option. *Register* window is displayed as shown below.

3. Choose 'I don't have the registration key' (Use this option if you have not purchased the product) or select 'I have the registration key' (Use this option if you have already purchased the product).

To register the software, when you do not have a registration key, follow the steps given below:

1. In the *Register* window, select '**I don't have the registration key**' option. Click **OK**, to go online and purchase the product.
2. Once the order is confirmed, a Registration Key will be sent to the email provided at the time of purchase.
3. In the *Online Registration* window, type the **Registration Key** and click **Register** button (Please ensure that you have an active Internet connection).

4. ' *Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.

To register the software, when you have a key, follow the steps given below:

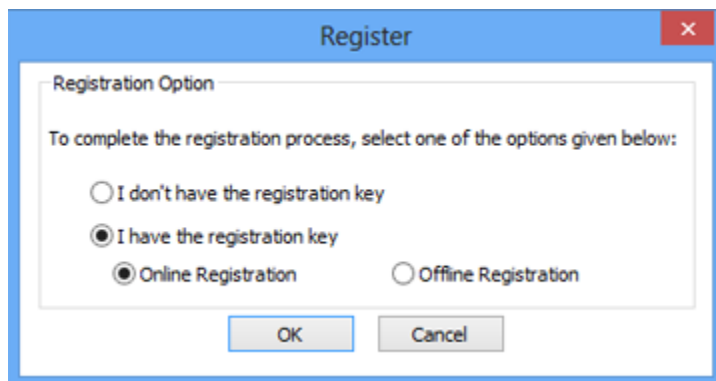

1. In the *Register* window, select '**I have the registration key**' option.
2. You can choose either 'Online Registration' (Use this option to register the software over Internet) or 'Offline Registration' (Use this option to register the software manually / through e-mail if for any reason, Internet connection is unavailable).

- **Online Registration**

Online Registration is possible only when an active Internet connection is available.

- **To register the software online:**

1. From the *Register* window, select **Online Registration**. Click **OK**.

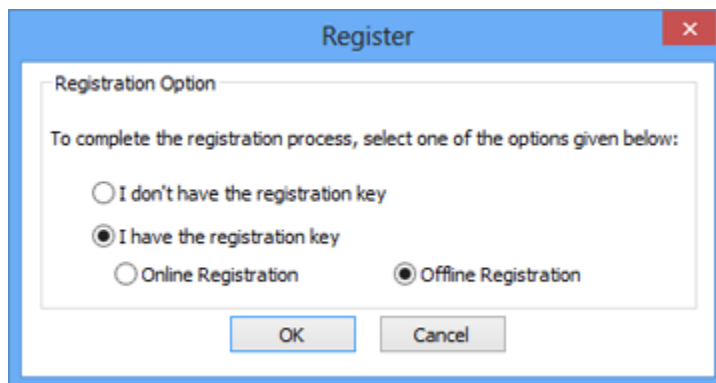

2. An **Online Registration** dialog box will appear.
3. Type the **Registration Key** (received through email after purchasing the product) in the field of Registration Key. Click **Register**.

4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.
- **Offline Registration**

Offline Registration enables you to register the product when your computer does not have an Internet connection.

 - **To register the software offline:**
 1. From the *Register* window, select **Offline Registration**. Click **OK**.

2. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

3. To get your License Key, which is required to register the software manually, you need to mail the listed **Registration ID** to support@stellarinfo.com.
4. A License Key will be sent to your email address after verifying the Registration ID and purchase details by *Stellar Technical Support*.
5. After receiving the License Key, open **Stellar DBX to PST Converter - Technician**. In *Register* window, select '**I have the registration key**'.
6. Select **Offline Registration** and click **OK**.
7. Enter the **License Key** received through email in the field of License Key.

8. Click **Register** to activate the software. A confirmation message is displayed if a valid key is entered. Click **OK**.

Transfer License

Stellar DBX to PST Converter - Technician allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

To transfer a software license from one computer to another, please follow the specific steps below:

On Target Computer:

1. Run demo version of the software.
2. In **Registration** Menu on Menu Bar, click **Register**. A new dialog appears.
3. From the *Register* window, select **Offline Registration**. Click **OK**.
4. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

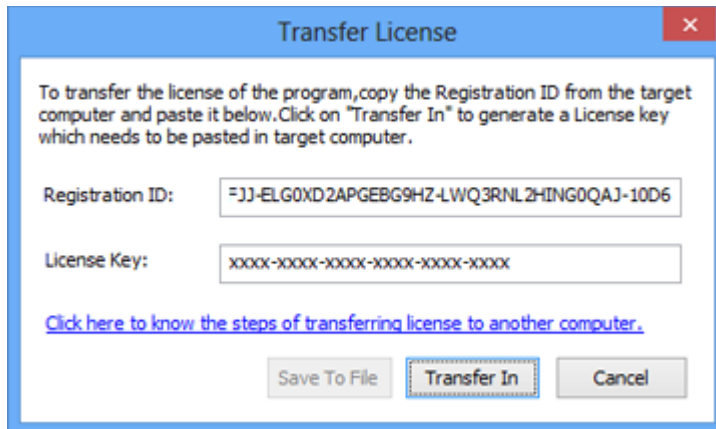

On Source Computer:

1. Run registered version of **Stellar DBX to PST Converter - Technician** software.
2. In **Registration** Menu on Menu Bar, click **Transfer License**.

3. Copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.

- To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.
- You can also save the License Key generated on the source computer. Click **Save to File** button to save the Registration ID and the License Key. In **Browse for Folder** dialog box, select the location where you want to save the details. Click **OK**.
- '*License Key has been saved successfully*' message is displayed after the saving process is completed successfully. Click **OK**

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

On Target Computer:

- Type the **License Key** which you have generated on the Source Computer in the provided field of License Key.

- Click **Register** to complete the activation process.
- '*Activation Completed Successfully*' message is displayed after the process is completed successfully. Click **OK**.

Updating the Software

There are periodical software updates for **Stellar DBX to PST Converter - Technician**. The software updates should be done to keep the software up-to-date. The updates can be a newly added functionality, a new feature, a new service or any other information that can be important for improvement. Update option in the application is capable of checking for the latest updates. This will check for both latest minor and major version available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version can not be updated.

To update the application, follow the steps given below:

1. Click on **Update Wizard** button from the **Tools** menu bar. **Update Wizard** is displayed.
2. Click **Next**. A busy timer shows that updates are being searched. If it finds any new version, a message indicates the availability.
3. If a message is displayed that no updates are available, click **Cancel** to close the wizard.
4. Click **Next**. The software will start downloading the update files from the server. When the process is complete, the software will upgrade to the latest version.
