2.4. Ordering the Software

Click <https://www.stellarinfo.com/email-repair/windowsmail-pst-converter.php> to know more about **Stellar**

Converter for Windows Live Mail.

The software can be purchased online. For price details and to place an order,

<https://www.stellarinfo.com/email-repair/windowsmail-pst-converter/buy-now.php>

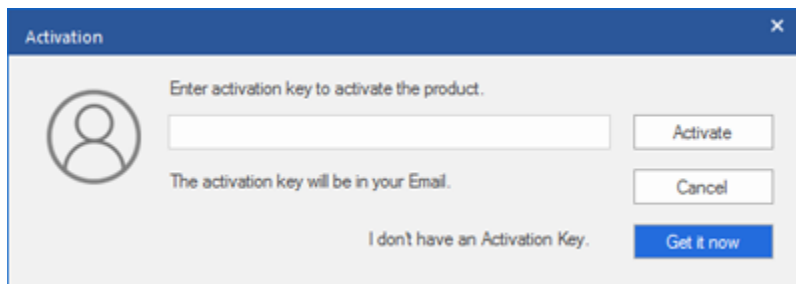

Once the order is confirmed, a pre-paid activation key will be sent through e-mail, which would be required to activate the software.

2.5. Activating the Software

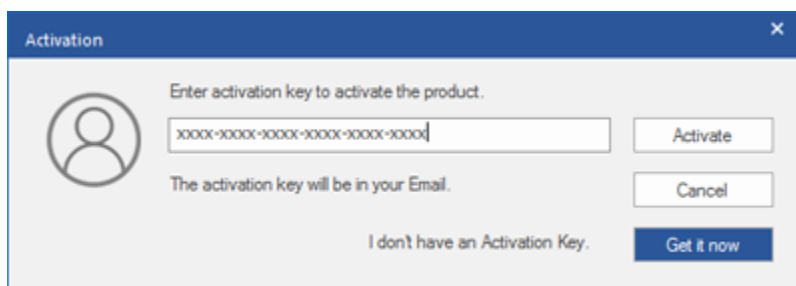

The demo version is for evaluation purpose only. You need to activate the software to use its full functionality. Use the **Activation Key** received via email after purchasing the software to activate it.

To activate the software:

1. Run **Stellar Converter for Windows Live Mail**.
2. Click the **Activation** button. Activation window is displayed as shown below:

3. If you don't have the activation key, click **Get it now** button in the window to purchase the software.
4. Once the order is confirmed, an Activation Key is sent to the e-mail that you have provided while purchasing the software.
5. Paste or type the **Activation Key** (received through e-mail after purchasing the product) and click **Activate** button (**Please ensure an active Internet connection**).

6. **Stellar Converter for Windows Live Mail** automatically communicates with the license server to verify the entered key. If the entered key is valid, activation is completed successfully.
7. **'Activation Completed Successfully'** message is displayed. Click **OK**.

2.6. Updating the Software

Stellar releases periodical software updates for **Stellar Converter for Windows Live Mail** software. You can update the software to keep it up-to-date. These updates can add a new functionality, feature, service, or any other information that can improve the software. You can easily download minor and major version from the update wizard. While updating the software, it's recommended to close all the running programs.

To update Stellar Converter for Windows Live Mail:

1. Click **Update Wizard** button from the **Tools** Ribbon.
2. **Update** window opens. The wizard will search for latest updates, and if it finds any new updates, a window will pop up indicating its availability.
3. Click **Next** and the software will download the files from the update server. When the process is complete, the software will upgrade to the latest version.

Live update may not happen due to following reasons:

- Internet connection failure.
- Updates are not available.
- Unable to download configuration files.
- Unable to locate updated files or version.
- Unable to locate executable file.
